Hello Parents,

We welcome you to another exciting year of learning. Here at South Jersey Christian Academy we are excited for new opportunities to educate your children in general subject areas and most importantly, the Bible. Education today is largely based on technology. As students move from grade to grade the use of technology in the classroom increases. **In fourth grade**, students will not only be using chrome books in the classroom, but also at home. Since chrome books will be used at home, students in grades 4-8 will need to purchase their own chrome book. Please, make every effort to purchase a chrome book by the end of September.

Thank You,

Mr. Steve Menden
